

## Dear MEDLIFErs,

Thank you for joining the MEDLIFE Movement via a Service Learning Trip with us! Here at MEDLIFE, our mission is to build a worldwide Movement empowering the poor in their fight for equal access to healthcare, education, and a safe home. As an SLT participant in Tanzania, you are joining that worldwide Movement!

The following is a sample travel plan for you to review. Please go over it before your trip and don't hesitate to reach out if you have any questions. Thank you for joining the Movement, and we can't wait to see you in Tanzania!

## Overview:

Over one-third of all households in Tanzania live in poverty, on \$1.00 a day or less with children and rural populations disproportionately affected by this hardship. As the economy relies primarily on agriculture, approximately 75% of the population lives in rural areas, often without access to basic infrastructure or clean water. According to UNICEF in Tanzania, "Malnutrition — most prevalent in young children from the poorest or rural households — is the single biggest contributor to child mortality, with malaria, anemia, pneumonia, diarrhea, HIV and AIDS also being key causes." Access to education remains limited for children in our partner communities. The abolition of primary school fees has increased primary school attendance, but there has been no corresponding increase in teachers, infrastructure, or resources. Lack of reliable data means that the impact of COVID-19 in Tanzania is unknown. However, even if the pandemic is contained within the country, the flow-on effects of an ongoing global health crisis risk undermining the Tanzanian economy.

On your Service Learning Trip to Kilimanjaro, you will learn about the history and culture of the region and the issues they face, assist local professionals on a Mobile Medical Clinic and complete a Development Project to improve local infrastructure. Register for a Service Learning Trip today to bring medicine, education, and a safe home to low-income communities in Kilimanjaro!

# Highlights of the Week:

- Learn about the challenges faced by low-income communities on a Reality Tour
- Gain experience shadowing healthcare professionals at a Mobile Clinic
- Help bring safer infrastructure to families with a Development Project
- Build bridges across cultures by connecting with community members

## Key Pillars

- Service: By volunteering on a Mobile Clinic and Development Project, you'll directly help bring
  accessible medical care, health education, and a safer home to the marginalized communities you
  visit.
- **Environment:** Service Learning Trips are created with sustainability in mind. In Kilimanjaro, you may have the opportunity to volunteer on an environmentally friendly project such as an eco-bathroom.
- **Education:** Learn about the historical, political, and economic factors that have shaped the realities faced by families. Deepen your knowledge of global health by shadowing healthcare professionals.
- **Life-changing experiences:** Through eye-opening experiences and building human connections, a Service Learning Trip will renew your passion for building a world free from the constraints of poverty.

## Option 1 Day by Day

#### Arrival → Departure

| Day 1   | Arrival to Tanzania               | Day 8  | Optional Extensions:  Option A: Full Day Safari |
|---------|-----------------------------------|--------|---|
| Day 2   | Optional Excursion or Leisure Day |        | Option B: 2-days Safari                         |
| Day 3   | Reality Tour                      | Day 9  | Departure if option A was chosen                |
| Day 4-7 | MEDLIFE Mobile Clinic and Project | Day 10 | Departure if option B was chosen                |

# Detailed Itinerary

### DAY

#### Saturday

#### **Arrival to Tanzania**

Arrive at Kilimanjaro International Airport (JRO). Participants will be greeted by a MEDLIFE staff member who will transport all participants from Kilimanjaro to the hotel. Participants will arrive at the Hotel and have the night to settle in at the hotel and recover from the long travel day. Food is not provided on the first day, but participants are able to purchase food at the hotel's restaurant.

#### Sunday

### Optional Excursion or Day at Leisure

Sunday is a day of leisure for all participants. MEDLIFE & Good Life Expeditions offer a variety of tours at an additional out-of-pocket cost. These include a tour of "Mailisita," the area surrounding the hotel, a relaxing visit to a hot spring, or a waterfall hike that includes a visit to a traditional Chagga Tribe coffee farm where you can learn to grow and prepare coffee! These tours also include sights of

Kilimanjaro's local churches and villages, as well as a discussion on local economy and civilian security. Alternatively, you can enjoy a day of leisure before the big week ahead!

Sunday night there will be an orientation meeting to brief you on the history of Tanzania, what to expect for the week, safety precautions, and a training course on MEDLIFE Mobile Clinics.

DAY

#### Monday

#### **MEDLIFE Reality Tour**

At 8:00am, participants and trip leaders will depart for the reality tour. The reality tour is meant to provide participants with a first-hand look at Tanzanian lifestyle, culture, medicine and health care. The tour begins with a visit to a police station and a government-owned hospital, called Kibosho Hospital. The group will then begin a light hike into the rainforest, through villages, over rivers, and past banana farms to see the way traditional Chagga people live. You will continue to discuss Tanzania's long history, politics, education system, and current social climates. The group will also pass the second oldest church in the Kilimanjaro region and a local elementary school and perhaps be able to interact with the students!

Then stop for lunch before continuing to Moshi Town for a brief tour and a walk through the local open-air market. Here, participants will be able to exchange money. The tour will end at a local coffee and milkshake shop. The day will end with time to relax and an evening meeting to discuss medicine in Tanzania.

Overnight MEDLIFE Hotel

### **Tuesday to Friday**

**4-7** 

### **Mobile Clinics & Development Project**

Mobile Clinics are held in a different community each day of the week. Currently, MEDLIFE works with Kikavu Chini, Rundagai, Kilimamswaki, and Kirua, most of which are rural villages that are 45-60 minutes from the hotel. These villages have the highest need for medical attention as they are furthest away from Mount Kilimanjaro and lack access to life-enhancing resources, such as running water or electricity. MEDLIFE is one of few NGOs that ventures into these areas. Upon arrival, participants set up each station by raising tents, helping doctors and nurses prepare their workspaces, stocking the pharmacy, etc.

The clinic will typically operate from 9am until 3-5pm, depending on the number of patients waiting to be seen. These numbers can range from 50 to over 200. Due to the incredible need in these communities, there may be upwards of 30-40 patients waiting to be seen - even in the early morning! Participants will be divided into groups of 3-5 to help the local health professionals manage various clinic stations. Groups are divided so that participants have a chance to participate in each of the stations over the course of the week. MEDLIFE volunteers will assist in each of these stations by being a helping hand to all locally licensed medical professionals, thus enhancing each participant's understanding of local health issues. Though MEDLIFE staff and local medical staff will function as translators as needed, "cheat sheets" with important translations will be available at each station. Additionally, English is spoken by most professionals and is a requirement for high school and university education so most staff and some patients will have a basic understanding of English.

Patients will visit the triage station, where volunteers will assist in taking each patient's vitals. From there, patients will listen to nurses in the education station and receive educational pamphlets from MEDLIFE participants. Patients will then be seen by a primary care doctor and receive proper medicines from our pharmacy free of charge. MEDLIFE staff and nurses are on-hand during mobile clinics to note any

patients that may require follow-up care after the end of the Mobile Clinic week.

After each day's clinic, the group will return to the hotel with 1-2 hours of free time before dinner. Pre-dinner meetings and presentations will be held some days to discuss education and development.

During the week, you may have the opportunity to assist in the construction of a community Development Project such as a library, bathrooms renovation in schools or school painting. Development Projects will vary, depending on community needs.

Overnights
MEDLIFE Hotel

### DAY

#### Saturday

#### **Departure**

Depart Tanzania anytime between 12:00 pm and 6:00 pm or choose an option:

Option A: Full-Day Safari
 Option B: 2-days Safari

### DAY

#### Sunday

If option A was chosen, depart Tanzania anytime between 12:00 pm and 6:00 pm.

If option B was chosen, continue with your 2-day Safari experience.

### Monday

**Departure**If option B was chosen, depart Tanzania anytime between 12:00 pm and 6:00 pm

### INCLUDED

- ✓ Safety equipment (including face masks)
- ✓ Medical insurance

## NOT INCLUDED

- ✓ Flights
- ✓ Volunteer Visa
- ✓ Tips
- ✓ Pre or post-trip accommodation
- ✓ Optional excursions
- ✓ Weekend meals
- ✓ Cancellation insurance

### **Travel Advisory & Visa Requirement**

Travelers need a valid passport to enter Tanzania. The traveler's passport must remain valid for at least 6 months after arriving in Tanzania. You'll also need two free, adjacent pages in your passport if you plan to apply for a visa when you arrive.

Tanzania offers various types of visas depending on the purpose of your visit. The one that volunteers must obtain is: "Ordinary visa for most countries in the world" or "Multi-Entry Visa for EEUU visitors". It is always recommended to search for any special regulations in case volunteers do not come from EEUU, Canada, UK or Puerto Rico. We strongly recommend obtaining the eVisa that has a price of \$100 and not purchase it on destination, the process to obtain the eVisa takes around 10 days, we recommend that volunteers start the process at least 2 weeks before the trip.

After receiving your Tanzania eVisa documents by email, you should print a copy of both the Visa Grant Notice and the Application Notification letter. You should also complete and print the attached Entry Arrival declaration form. All 3 of these documents, as well as the same passport used to apply, must be presented to border officials in Tanzania.

#### **Health Precautions and Vaccinations**

Travelers are recommended to be vaccinated against COVID-19. Yellow fever vaccination certificate will be required if travelers are coming from countries where it is endemic.

You do not need to show a COVID-19 vaccination certificate or negative COVID-19 test to enter Tanzania. Health officials may screen you for COVID-19 symptoms on arrival. They may also randomly select travellers for rapid antigen testing.

Major infectious diseases:

Malaria: There's a list of recommended <u>drugs</u> to prevent malaria according to CDC.

- Dengue fever: There's a <u>prevention protocol</u> provided by the CDC
- Rabies: Transmitted by dogs, is the same treatment as in any other destination.

For more information visit: <a href="https://wwwnc.cdc.gov/travel/destinations/traveler/none/tanzania">https://wwwnc.cdc.gov/travel/destinations/traveler/none/tanzania</a>

### **Dress Code - Cultural Sensitivity and Modest Attire**

Tanzania is a religiously diverse country as are the communities we serve. They are very conservative, here some recommendations:

- Modesty is key: Clothing should be modest and not transparent.
- Covered shoulders: Do not wear tank tops or vests that leave the shoulders bare.
- Avoid tight-fitting garments unless worn in combination with a skirt or dress (leggins are permitted)
- No low-cut tops: Steer clear of tops that expose the chest area.
- Conceal midriff/stomach area: Tops revealing the midriff or stomach are not permitted.
- Skirt/Shorts length: Skirts should be longer than knee length. Shorts are not permitted.

#### Other Rules and Recommendations:

- It is forbidden to take pictures of public or government buildings.
- Most of the population has a conservative approach on social activities, therefore it is recommended to wear modest clothing, limit displays of affection, and to not ingest alcoholic beverages in public as it can be offensive to the residents.
- Homosexuality is illegal in Tanzania, and there are significant social and legal restrictions against LGBTQ+ individuals.
- Tanzania implemented a strict ban on the use of plastic bags for environmental reasons. This ban includes both the importation and usage of plastic bags, including those used for storing clothes or items in luggage. Travelers to Tanzania are encouraged to use alternative options such as reusable bags or zip-lock bags.
- Bring a minimum of \$200 USD for travel expenses\* and an emergency fund of \$250 USD (for insurance deductible).
- It is recommendable to bring credit card nevertheless not many places have POS (99% of establishments accept only cash)

\*\*Your Trip Leader will show you where to exchange money. Bring large bills to get better exchange rates. (\$50 and \$100). The bills should be within the range of 2009 to present so as to avoid any inconvenience.
